

8600 NW 36 St., Ste. 700
Miami, FL 33166

MEMORANDUM

DATE: April 3, 2015

FROM: Facundo Bernal, HFR-SE2577
Director Imports, FLA-DO, MIA-RP

TO: Florida Custom Brokers & Forwarders Association

SUBJECT: Electronic Distribution of Notices of FDA Action via eNotice

As our efforts to improve communications with industry and facilitate trade continue, we are happy to inform the local implementation of a system to send filer notices electronically via email. Participation in this program is in a voluntary basis which can be opted out at any time by either party. We encourage however as much participation as possible.

Be aware that we will be moving to a different location soon. This move will preclude us from being able to deliver filer notices to the broker boxes at the CBP Cargo Clearing Center (CCC). Once we move to the new location, notices addressed to filers not participating in eNotice will be sent via regular mail. Those filers that decide to opt-in will have to complete the attached forms with the information requested and return them via email to floridaimportcompliance@fda.hhs.gov.

Importers and Consignees may not participate in eNotice at this time.

Please make sure that you share the information herein immediately with your customers, brokers of FDA regulated products in general and all those interested parties.

Sincerely,

A handwritten signature in black ink, appearing to read "Facundo Bernal".

Facundo Bernal
Director Import Operations Branch
Florida District
